

**Plan for Commissioning High Quality Services for North Lincolnshire**

<b>Mission</b>	'To achieve the best health and well-being that is possible for the residents of North Lincolnshire, within the resources available to the CCG'			Providing the right care in the right places to meet patient needs. Providing healthcare through all stages of life
<b>Strategic Aims</b>	* Continue to improve the quality of services    * Deliver the best outcomes for every patient    * Reduce the inequalities gap in North Lincolnshire * Improve the patient experience    * Reduce unwarranted variation in services			
<b>Values</b>	* Preserve & uphold the values set out in the NHS Constitution    * Value the input of patients & carers into the design & delivery of services we commission * Work with all our Partners for the benefit of North Lincolnshire residents    * Treat patients, carers and colleagues with dignity & respect			
<b>Outcomes</b>	Increase the number of people who are managed within their own home during an acute illness, by ensuring appropriate skills are available in the community Improve people's ability to manage their own condition, reducing the risk of them requiring a hospital admission, thereby maintaining independence for as long as possible Improvement in patient and carer experience for people at end of life, enabling them to die in their preferred place of care Delivery of care within community based settings, with care delivered closer to people's home resulting in a reduction in need to travel to a hospital setting Improved access and waiting times for psychological therapies (IAPT) services Improved assessment, treatment and experience for people with dementia			
<b>Key Priorities for 2013/14</b>	<b>To work with partners across Northern Lincolnshire to develop proposals to ensure safe and sustainable services. Developing a Future Model of Care that delivers 'Right Care in the Right Place'</b>  Improving the Quality of Primary Care    Improving care at End of Life Support to carers    Supporting people's mental health and wellbeing with a particular focus on Dementia and Improving Access to Psychological Therapies (IAPT) Improving mortality and preventing people dying prematurely    Improving outcomes for children and improved care for women during pregnancy Improving outcomes for people with Long Term Conditions Implementing the Urgent Care model including NHS 111
